APPLICATION FOR INTERNATIONAL ADOPTION PROGRAMS

Instructions

Thank you for considering Spence-Chapin as your primary adoption service provider. Applications are reviewed weekly at Spence-Chapin by our Adoption Team. Once your application has been reviewed, our International Program team will contact you with any follow-up questions, points of clarification, and to discuss next steps. The purpose of the application is for Spence-Chapin to gain a full view of your family and the child you intend to adopt. This information allows Spence-Chapin to begin to assess program eligibility for your chosen international adoption program and set expectations for the rest of your adoption process.

Please be as thorough as possible and attach additional pages as needed. Write N/A for any questions that do not apply. Identifying information will be kept confidential and will not be released to anyone other than Spence-Chapin staff, the Accrediting Entity, or overseas representatives without prior consent.

Before proceeding to complete any portion of the application, NYS regulations require that you complete an orientation. Please allow 60 minutes to watch the orientation before completing the application forms. The final pages of this packet include a supplemental acknowledgement form; you will have to write the date that you watched this orientation on that supplemental acknowledgement form.

The orientation for the South Africa program can be viewed [here](#).

The orientation for the Colombia/Colombia Heritage program can be viewed [here](#).

The orientation for the Bulgaria program can be viewed [here](#).

After completing the orientation, there are five elements to complete for the application process. Please be sure to complete and return all of the following elements:

1. OCFS-5200A – Self-Assessment – click [here](#)
 - a. Instructions are provided on page 3 of this packet

Instructions for Form OCFS-5200A – Self-Assessment

This is a New York State form, created by the Office of Children and Family Services. We are unable to alter these forms in any way. Please **type** your responses; if you need more space to answer a question, please write “see attached” and then include your answer on another piece of paper.

All members of the household, including children, should complete this document together. Only one form is required per household

Question 3

- If you are applying to adopt from Colombia or Bulgaria, foster care may be an option for some children awaiting intercountry adoption; please respond to the question as written.
- If you are applying to adopt from South Africa which only uses institutional (orphanage) care, please interpret the question as, “What is your understanding of the needs of children living in institutional care awaiting adoption?”

Question 7

- If you are adopting internationally, direct contact with biological family member is not usually possible, although in some cases it may be possible. Please interpret this question as, “What is your understanding of how and at what ages to talk to your child about adoption?”

Question 16

- Federal regulations require a minimum of 10 hours of training for international adoptions. Prior to the approval of an initial home study, Spence-Chapin requires a minimum of 15 hours of online courses, plus 13 hours of live trainings facilitated by Spence-Chapin staff, as well as readings and written exercises; additional trainings may be required based on your child request characteristics and/or any training needs assessed by our social workers. Additionally, Spence-Chapin requires a minimum of three additional hours of training before the approval of any home study update. Finally, after a child is referred to your family a child-specific training plan will be developed and implemented for your family.

Initial Assessment of Family Readiness

This section is to be completed by Spence-Chapin staff. Your agency worker will make an initial assessment of ‘family readiness’ which will be reviewed with you. Please **do not** sign anywhere on this form until instructed to do so by a Spence-Chapin staff member.

Instructions for Form OCFS-5200B – Adoptive Parent Application

This is a New York State form, created by the Office of Children and Family Services. We are unable to alter these forms in any way. Please **type** your responses; if you need more space to answer a question, please write “see attached” and then include your answer on another piece of paper.

Household Member Information

Federal regulations define “adult member of the household” to include any person “who does not actually live at the same residence but whose presence in the residence is relevant to the issue of suitability to adopt.” Therefore, if there is any adult who has regular access to your home such as a babysitter or nanny, include that person in this section. Please include the information of others residing in your household, including a second applicant, children under or over 18, and part-time household members. There is a separate place to note children under and over 18 residing full-time outside the home. If you have a current and unexpired home study approval from another agency or hold a current and unexpired pre-certification in court for an independent domestic adoption process, please say “yes” to the question ‘Are you currently an approved adoptive parent’ and complete the approval information underneath.

Please answer “yes” to the question “Have you previously applied to be a foster or adoptive parent in this state or another state?” if any of the following have ever occurred:

- You applied to an authorized agency’s placement program or home study program
- You initiated a home study (whether with an agency or an independent social worker; if with an independent social worker, please put that person’s name under “Agency”)
- Please also answer “yes” if you took either of these actions in a foreign country

Transportation

If you do not have a personal vehicle, public transportation is a perfectly appropriate answer to the question. If you do have a personal vehicle, please complete the information underneath and submit a copy of your valid driver’s license, valid car insurance, valid registration and valid inspection with your application.

By providing the name(s) of individuals who can serve as personal reference providers on form OCFS-5200B, I understand that I am authorizing Spence-Chapin to contact those individuals to request a written letter about my character and suitability to adopt.

Spence-Chapin promotes equal opportunity for all clients by complying with local, state, and federal laws and regulations. We do not exclude, deny applicants, or otherwise discriminate on the basis of age, race, ancestry, hair texture and hairstyles or other traits historically associated with race, color, creed, religion, disability, sex, sexual orientation, gender, gender identity, gender expression, marital status, partnership status, parental status, HIV status, caregiver status, military status, or any other basis protected by federal, state, or local laws. At no point in the adoption process is Spence-Chapin obligated to place a child with any applicant. All placement decisions are made in the child's best interest. I/we understand that if, in Spence-Chapin's sole judgement, a placement would not be in the child's best interest, Spence-Chapin reserves the right to discontinue the adoption process. Any documentation submitted in connection with the home study and adoption process, whether by the applicant(s) or by a third party will not be returnable to the applicant regardless of whether or not the adoption process reaches finalization. Child Medical Checklist

During your adoption process it is necessary for your family to think about the child(ren) you will adopt and the types of medical conditions and risk factors you would consider. This form is an important tool that is designed to support our team in understanding your family's openness to special medical needs which will guide resource identification for the child you hope to parent.

This worksheet is intended to orient you to many of the medical issues faced by children around the world. The issues listed range from very minor and common to more significant and life-long. Please complete the attached checklist to provide information to our Adoption Team about what medical concerns your family would consider at this time. These needs will be explored again during the home study process should your family be accepted to the program.

We know this is a challenging process but it is an important one to engage with as you define what needs your family feels most comfortable with. We believe that it is in the best interest of children for families to be realistic and thoughtful as they think concretely about what parenting a child with each given need may look like with regards to resources, medical care and support systems. We encourage each family to contact a pediatrician who specializes in international adoption and think carefully about your family's resources and abilities when filling out this form. Please consider each condition thoughtfully and assess your comfort level. Be sure to take into consideration your lifestyle, support system, finances and resources.
