COACHING

Solution-focused, short-term, and accessible

Coaching is short-term and issue specific, typically one to three sessions, and goal-oriented. Coaching can address any issues you are facing. It does not need any type of diagnosis. Some of the topics included are:

- Do you freeze every time your son asks about his birth parents?
- Are you having trouble explaining your decision to make an adoption plan to your family?
- Is getting your seven-year-old to go to bed an epic battle every night?
- Are you wondering how to respond to a birth relative who found you through DNA testing?
- Are you thinking about searching?
- Are you in reunion and have hit some bumps?

Our coaches have worked with hundreds of individuals and families across the country on all types of adoption-related issues.

Spence-Chapin offers in-person, video or phone coaching to target and address your challenge.

When you need us, we are here for you.

COMMUNITY PROGRAMMING

A place for lifelong connection

Spence-Chapin believes in the power of community and the importance of connection to others who share adoption stories. We offer workshops, groups, and social events for everyone connected to adoption.

Bagels and Blox

For families with children 0-6 years old

A monthly playgroup for children and their families to socialize with their adoption community. Staffed by Spence-Chapin social workers and volunteers who are teen adoptees, families have the chance to connect with other families, enjoy breakfast, and play with their children, while also having professionals present to answer questions and provide tips. We have fun, do crafts, and of course, talk about adoption.

Play Café

For families with children 6 to 9 years old

A regular event where kids enjoy crafts and adoption-related activities while forming friendships with other adopted children.

Mentorship

For adoptees in middle and high school

Adult adoptee mentors and tween and teen adopted mentees meet monthly for fun social gatherings that allow them to make new friends, build self-confidence, and connect with others who can relate to them. Mentorship is also a place for adult mentors to connect with an adoptive community of peers as they mentor the tweens and teens.

Lifebook

For families of children 6 years old and older

A fun and exciting workshop that allows children of all ages to be the author of his or her life story. Making a Lifebook – or updating an existing one – provides an invaluable tool for children to process their unique adoption story and share it with others. Our social workers facilitate Lifebook workshops in groups or can arrange a private workshop for your child and family.

Mask-Making and Identity

For families with children 10 years old and older

Throughout the course of this workshop, we discuss our inner and outer selves, including how adoption influences both. Mask Making sparks meaningful conversation between families while they are being creative together.

Volunteering

For anyone high school age and older

We offer volunteer opportunities for high school and adult adoptees through many of our programs to support Spence-Chapin's adoption community.

Groups

For all ages

Spence-Chapin provides space for groups outside of our own programming. We host a birth parent group every third Thursday of the month and we support AAPAC (African-American Parent Advisory Committee), a social group for adoptive parents to meet other adoptive parents who are parenting African-American children.
